

Second work: SOLAR OVENS

publié le 04/03/2009 - mis à jour le 21/03/2009

First, we tried to make different solar ovens without the help of the teachers, just with the Internet.

We were in groups of 3 or 4.

For 4 weeks, we worked alone on our personal solar oven.

Then, with Mrs Donascimento, Mr Sanchez, Mr Leger and Mr Marmande, we began to work on the Italian project which consists in making 2 solar ovens.

But this time, we had the plans with the different measurements for the moment, we have just finished taking the measurements in full scale.
