

# Tortillasse

## Calcul

### Cylindre:x2

$$4 \times 4 \times \pi = 50$$

$$50 \times 10 = 500$$

### Pavé:

$$32 \times 14,5 = 464 \text{ cm}^2$$

$$464 \times 11 = 5104 \text{ cm}^3$$

### Prisme:

$$15 \times 115 : 2 = 86 \times 30 \text{ cm}^2$$

$$172 \times 30 = 2580 \text{ cm}^3$$

## Le Total des volumes

$$500 + 500 + 5104 + 2580 = 8684$$
