

Our favorite picture of Canada

Source : gocanada.about.com

This picture represents a part of the city of Montreal which is located in South East of Quebec of Canada, next to Ottawa (200 km). Canadians sometimes speak French-Quebequois. On this picture, they can take a walk, ice-skate and admire the view from the Ferris wheel. In Montreal, each district have their own ice rink. This ice-rink is it more beautiful of all. Sometimes we can see mothers who ice-skate and who push their pushchair with their child.

We can visit the Vieux Montreal which keeps it authentic charm and we can visit a lot of places (the Olympic stadium, the biodôme, the parc Mont-Royal in winter...).

We choose this picture because we like the snow in the city and we don't usually see this landscape in Jonzac. The place in the night is very beautiful. We love the light which highlight buildings, ice rink and the Ferris wheel.
