This photo was taken from the French tourist website *"Grand Nord, Grand Large"*.

It was taken in the province of Quebec, in the Laurentian mountains. The Laurentides is a region which is very big (20 779 19 km<sup>2</sup>) and which has a population of 589 400 inhabitants. It is located in the north-west of Montreal which is the most populated city.

It is a very beautiful region where there are lots of lakes, rivers, forests and mountains and lots of snow in winter. The snow-capped landscape is breathtaking. It is a place where you can do a lot of different activities. In the photo, we can see people who are riding snowmobiles, it must be really great ! You can also do dog sledding. Huskies are so nice ! You can go snowshoeing and skiing and you can probably try ice fishing ! You can see polar bears and mooses but that's not sure.

We really love this photo, it reminds us of our winter vacations in the Pyrenees and this place must be an amazing holiday destination !
