

Ariel Team

Challenge 1 : Spaghetti towers - Marie

For the first challenge we had to build a tower with spaghetti, tape and marshmallow. We enjoyed it, because we built something that didn't really look like a tower. The "tower" collapsed at the end of the challenge just before Mrs Legeard could measure the height. But that was really funny so we didn't care !

Ariel Team

Manon, Marie, Tuan, Jossua, Romain, Julien

Challenge 2 : Mimes - Julien

For the second challenge, the whole team had to do this activity. One person of the team stood in front of the board looking at it. The other members of the team had to find out what he/she was describing/explaining/miming. And when the word was said, the person in front of the board changed his role with another member of this team. The team with the highest score won the game !

For example, we had to find these words : a train, a chair, a car, a lion, a dog, Michael Jackson...

Challenge 3 : What's in the Box? - Tuan

For this day's challenge we had to put our hand in a box and guess or describe what's in the box to our teammate. There are 2 rounds where the first one has 3 boxes and the second one has only 1 box. The key to this challenge was our ability to describe the containings with our knowledge of adjectives.

For the first round we manage to figure out all the 3 boxes: a rat, some jelly (in a box, yes. It was a brilliant idea) and some rice (the rice was in a bowl inside the box and it went everywhere which made it very difficult to blindly find it in a box).

And for the last round which we failed, inside the box was salt, which all of us can't think nothing else than sand and our options of words to describe it was very limited.

Challenge 4 : Quizz - Manon

For the fourth challenge we had to answer questions about general knowledge.

We had to answer lot of questions. It was more difficult than the first challenge but it was very fantastic because we worked together, we helped each other. Thanks to our team we won the Guy Chauvet challenge.

Feelings of the team about the Guy Chauvet Challenge : -Jossua

Romain:

"I think this is a crazy lesson but it is very funny because we do things what we never do in other lessons such as building a tower with spaghetti."

Jossua:

"To my mind working in a group is very interesting because we learn how to speak english. And, to me, the A.G.A.P. lesson is a very special lesson, because we don't do the same things as in the other lessons."

Julien:

"For me miming was very hard, because I didn't have the words or the ideas to make my colleagues guess the object, animal or celebrity. "

Marie:

For me challenges were made to have fun more than be serious, that was really funny! =D

Manon:

"MY impression is IT WAS FANTASTIC"
