

The best Team

Three months ago, we started organising an activity for the Spanish students of la Solana, a city in Spain, 2 h 30 away from Madrid. They came in France from 14th January to 21st January 2018.

In the AgAp class we prepared a rally in Loudun. They had to go to different places using our itineraries, read cultural facts about the places and do actions. The places were the heart of Loudun, la porte du Martray, the church Sainte-Croix, the city hall and the Velodrome. To do this activities we were in teams and there were 10 teams. I was with 5 Spanish students and 1 other French student. Our team was the 9th. For the rally, that we had prepared, we all think that it was good and interesting but a little tiring for we had to walk a lot. The other activities were sports, quiz ... The Spanish answered the quiz very well and we won many points at the activities. We won the competition and we were the best team! We got a tee-shirt of the high school Guy Chauvet, a glass and a sticker of "DD du poitou". We could communicate with them in Spanish, in English and it was very interesting to talk, to share our feelings about the activities. In short it was a very good day with them .
