

Remember Together

There are too  many problems

There is so  much pollution

We must look  for solutions

It is really  time to act

It's the world's  destruction

It makes me fear

It makes me sad

And the waste  profusion

We must change it

And change it all

There are too too too too many options

people plant  more and more trees

We must use  public transport

So do all what you can to help

And the green  profusion

It makes me feel

It makes me know

And the good  vibration

It makes me feel

It makes me shine

It makes me feel 

It makes me shine

It makes me feel

Together  let's go for it !(x 4)

There is one  right option

Save  our blue planet 

There is strength  in numbers

Don't forget  it  is  our only home

And no one is too small
to make a difference
All together, we can do it !
All together, we are worth it !

Clémentine | Margot, Elia

Our planet is in our hands !

We're all here to warn you
Stand up, get up
And stand up now !

And the good vibration
It makes me hope
It makes me shine
It makes me hope
It makes me feel
It makes me hope

Together | let's stand for it ! (x 8)

And no one is too small
to make a difference
All together, we can do it
Without Earth, we are nothing
