

The European Day of Languages : 10 CHALLENGES

These challenges encourage you to do something new – that you probably would not normally do and go a little beyond your comfort zone. Some involve an element of risk – but as the saying goes – **nothing ventured, nothing gained!**

I greeted someone (e.g. saying “hello”, etc.) or even said ‘I love you!’ in 5 different languages

I listened to a radio station in a foreign language for one hour.

I wrote down my 3 favourite words in a foreign language.

I wrote a shopping list in a foreign language.

I greeted 3 people in their own language (which is different from your first language!).

I counted from 1-10 in 3 different languages within 1 minute.

I listened to 3 songs in different languages.

I watched a movie in a foreign language (with subtitles).

I sent a text message in a foreign language.

I borrowed (and read!) a foreign language book from a library.
