

Day 1 : Arrivée des élèves estoniens au collège

publié le 20/05/2025

DAY 1

Several different activities were carried out during the day :

We showed our correspondents around the school, had a French breakfast, and introduced ourselves. We also compared our school systems. In the afternoon we did a TERRA AVENTURA It's like a little treasure hunt. We enjoyed several different things to see in the city, both architecture and history and we were very very very hot. Noah and Tuuli

This morning, we went to school by car. We joined the whole group of exchange partners and students.
 All together, we had breakfast to get to know each other, then we worked in groups to study the French and Estonian school systems.
 After that, we had lunch in the cafeteria with our exchange partners, and then we met again in the classroom to prepare for the visit of the town of Saintes using the Terra Aventura app.
 So, we visited the town of Saintes thanks to Terra Aventura, and we walked around the city with the Estonian students. We looked at the monuments of Saintes and then met back at school with all the groups before going home to our host families.
 Here are a few pictures.
